Blanket Period From:

To:

Include a blanket period only if the certificate covers multiple shipments of identical goods for a specific period of time; otherwise, these fields may be left blank.

Declarations

Part Number	Description	Certification Indicator	Country of Origin	Origin Criterion	HTS
-------------	-------------	-------------------------	-------------------	------------------	-----

I certify that the good(s) described in this document qualify as originating under the United States Mexico-Canada Agreement (USMCA), and the information provided is true and accurate. I assume responsibility for providing such representations and agree to maintain and present upon request, or to make available during a verification visit, documentation necessary to support this certification.

There has been no further production or any other operation outside the territories of the parties other than the unloading, reloading, or any other operation necessary to preserve it in good condition or to transport the good(s) into the territory of the importing party. The goods did not leave the custody of the customs authorities while outside the territories of the parties.

Glossary

Deringer Account Number

A ten character alpha-numeric code assigned by Deringer to identify clients.

Blanket Period

Blanket period pertains to a certificate covering multiple shipments of the same good(s) over a specified time. The "From" date is the effective date for the coverage of good(s) under the certification, which may be prior to the date found in the signature line. The "To" date represents the expiration date of the blanket period, which may not exceed 12 months from the "From" date. This blanket certificate will need to be updated if any of the information changes.

Harmonized Tariff Schedule classification

Origin Criterion

Specify the origin criterion (A, B, C, or D) under which the good qualifies, as set out in Article 4.2 (Originating Goods):

A - Wholly obtained or produced entirely in the territory of one or more of the Parties, as defined in Article 4.3 (Wholly Obtained or Produced Goods)

B - Produced entirely in the territory of one or more of the Parties using non-originating materials provided the good satisfies all applicable requirements of Annex 4-B (Product-Specific Rules of Origin)

C - Produced entirely in the territory of one or more of the Parties exclusively from originating materials

D - Except for a good provided for in Chapter 61 to 63 of the Harmonized System:

(i) produced entirely in the territory of one or more of the Parties;

(ii) one or more of the non-originating materials provided for as parts under the Harmonized System used in the production of the good cannot satisfy the requirements set out in Annex 4-B (Product-Specific Rules of Origin) because both the good and its materials are classified in the same subheading or same heading that is not further subdivided into subheadings or, the good was imported into the territory of a Party in an unassembled or a disassembled form but was classified as an assembled good pursuant to rule 2(a) of the General Rules of Interpretation of the Harmonized System; and

(iii) the regional value content of the good, determined in accordance with Article 4.5 (Regional Value Content), is not less than 60 percent if the transaction value method is used, or not less than 50 percent if the net cost method is used

Certification Indicator

Specify Certifier's authority (in accordance with Article 5.2) and Certification of the good (A, B, C, or D) based on the following:

A - Certifier is not the Producer, but has a certification or statement from the Producer*

B - Certifier is the Importer**

C - Certifier is the Exporter

D - Certifier is the Producer

* All USMCA Certificates require a statement of the Certifier's status as either Importer, Exporter, or Producer. A good listed with an Indicator A should/will only ever be used as a supporting statement of USMCA eligibility and cannot be used as a basis to claim USMCA preference on that good at time of entry. If the certifier or a recipient of this Certificate wishes to claim preferential treatment on a good listed with an Indicator A, they must issue a new USMCA Certificate declaring themselves as either the Exporter (Indicator C) or the Importer (Indicator B), as appropriate.

** Restrictions on use by country may apply, see Article 5.2.

Country of Origin

Identify the country of origin of the good using the ISO Country Code:

US - United States of America

CA - Canada

MX - Mexico
