

TOXIC SUBSTANCE CONTROL ACT - TITLE VI IMPORT CERTIFICATION FOR FORMALDEHYDE EMISSION STANDARDS FOR COMPOSITE WOOD PRODUCTS

Title VI of the Toxic Substances Control Act (TSCA) established limits for formaldehyde emissions from composite wood products: hardwood plywood (veneer and composite core), particleboard, medium-density fiberboard (MDF), and thin-MDF. The regulation also applies to component parts and finished goods fabricated using composite wood products. The purpose of TSCA Title VI is to reduce formaldehyde emissions from composite wood products. TSCA Title VI requires that composite wood products be tested and certified, ensuring only compliant products enter the product supply chain.

Description of Goods: _____

HTSUS Number: _____

I certify that all chemical substances in this shipment comply with all applicable rules or orders under TSCA and that I am not offering a chemical substance for entry in violation of TSCA or any applicable rule or order under TSCA. (EP4 – Positive Certification)

OR

I certify that the goods entered in this shipment do not contain formaldehyde and are exempt from reporting requirements under the Toxic Substance Control Act Title VI. (Disclaim A)

By signing this form, you acknowledge that you have read the form and understand your responsibilities as the importer of record. Goods that are disclaimed in error may be subject to action by the EPA.
